

Amendments to the Claims

Claim 1 (Previously presented): Simulated clothing for a doll or a doll-sized or dress formed shaped mannequin comprising:

a first piece of conformable, lightweight, cohesive self-adherent elastic wrappable material having a width, length, and relatively thin, uniform thickness;

the first piece of material having a size and shape conducive for placement on or around a portion of a doll or a doll-sized or dress form shaped mannequin;

so that the piece may be applied to a portion of a doll or a doll-sized or dress form shaped mannequin in almost any way or configuration, repeatedly removed and reapplied in the same or different configuration, or applied to different dolls or mannequins and secured by self-adhesion of overlapping portions of substantially any side or portion of the first piece.

Claim 2 (Original): The doll clothing of claim 1 wherein the material resists tearing and shearing but is cuttable with scissors.

Claim 3 (Original): The doll clothing of claim 1 wherein the piece is formed into a shape that can be used to simulate an article of clothing or part thereof on a doll or a doll-sized or dress formed shaped mannequin.

Claim 4 (Original): The doll clothing of claim 1 wherein the piece is sized originally to a size and shape to form a simulated piece of clothing or part thereof.

Claim 5 (Original): The doll clothing of claim 1 wherein the material comprises a laminate of non-woven material including lengthwise elastic fibers for elasticity and including cohesive properties to provide self-adhesiveness but not adhesiveness to other materials or hair.

Claim 6 (Original): The doll clothing of claim 5 wherein the material is natural rubber latex-free.

Claim 7 (Original): The doll clothing of claim 1 further comprising a second piece of said material adapted to be applied to a portion of a doll or a doll-sized or dress form shaped mannequin and/or said first piece.

Claim 8 (Original): The doll clothing of claim 1 further comprising a second piece of said material applied onto said first piece.

Claim 9 (Original): The doll clothing of claim 7 further comprising a third piece of said material adapted to be applied to a portion of the doll or the doll-sized or dress form shaped mannequin and/or said first and/or said second piece of material.

Claim 10 (Original): The doll clothing of claim 1 wherein the piece of material simulates an article of clothing.

Claim 11 (Original): The doll clothing of claim 7 wherein the first and second pieces of said material simulate an article of clothing.

Claim 12 (Original): The doll clothing of claim 8 wherein the second piece simulates ornamentation or a pattern on the first piece.

Claim 13 (Original): The doll clothing of claim 7 wherein said first and second pieces simulate at least part of an outfit of simulated clothing for a doll or a doll-sized or dress form shaped mannequin.

Claim 14 (Original): The doll clothing of claim 7 wherein said first and second pieces vary by color, size, or shape.

Claim 15 (Original): The doll clothing of claim 7 wherein one simulated article of clothing is configured from one or more pieces of said material.

Claim 16 (Original): The doll clothing of claim 1 in combination with a doll or a doll-sized or dress form shaped mannequin.

Claim 17 (Original): The doll clothing of claim 16 wherein the doll or the doll-sized or dress form shaped mannequin is three dimensional at least in part.

Claim 18 (Previously presented): A method of simulating clothing on a doll or a doll-sized or dress form shaped mannequin, comprising:

providing a piece of conformable, lightweight, cohesive self-adherent elastic wrappable material

having a width, length, and relatively thin, uniform thickness;

wrapping said piece around a portion of a doll or a doll-sized or dress form shaped mannequin;

securing the piece to the doll or the doll-sized or dress form shaped mannequin in almost any

way or configuration, repeatedly removed and reapplied in the same or different

configuration, or applied to different dolls or mannequins by overlapping and pressing

together portions of substantially any side or portion of the piece.

Claim 19 (Original): The method of claim 18 further comprising a second piece of said material to the doll.

Claim 20 (Original): The method of claim 18 further comprising overlaying a piece of said material over said first piece of material and adhering it by said self-adherent properties.

Claim 21 (Previously presented): A method of making doll clothing comprising:

providing a plurality of pieces of conformable, lightweight, cohesive self-adherent elastic

wrappable material a width, length, and relatively thin, uniform thickness;

placing one or more pieces of the material on a doll figure or a doll-sized or dress form shaped

mannequin in almost any way or configuration, repeatedly removed and reapplied in the

same or different configuration, or applied to different dolls or mannequins by self-

adhering at least one piece to simulate the appearance of an article of clothing on the doll figure.

Claim 22 (Original): The method of claim 21 wherein the article of clothing can form an accessory.

Claim 23 (Original): The method of claim 21 further comprising adhering a second piece of the material onto the article of clothing, wherein the second piece forms an ornament on the article of clothing.

Claim 24 (Original): The method of claim 21 further comprising adhering a second piece of the material onto the doll figure, wherein the second piece of material forms an accessory on the doll figure.

Claim 25 (Original): The method of claim 21 wherein a first piece and second pieces of material can be the same or different colors, sizes or shapes.

Claim 26 (Original): The method of claim 21 wherein the article of clothing is reconfigurable.

Claim 27 (Original): The method of claim 21 wherein the article of clothing is removable.

Claim 28 (Original): Doll clothing made by the method of claim 21.

Claim 29 (Original): Accessories made by the method of claim 21.

Claim 30 (Original): The doll clothing of claim 28 comprising at least one adhered detail such as a belt, ornament, sash, or collar also made of the material.

Claim 31 (Original): The method of claim 21 wherein the article of clothing can form shoe apparel.

Claim 32 (Previously presented): A kit for clothing a doll or a doll-sized or dress form shaped mannequin comprising:

a plurality of pieces of conformable, lightweight, cohesive self-adherent elastic wrappable material a width, length, and relatively thin, uniform thickness; and instructions for making articles of doll clothing with one or more of said pieces.

Claim 33 (Original): The kit of claim 32 wherein the pieces are of the same or different colors, sizes or shapes.

Claim 34 (Original): The kit of claim 32 further comprising a doll or a doll-sized or dress form shaped mannequin.

Claim 35 (Original): The kit of claim 32 further comprising a fashion wheel.

Claim 36 (Previously presented): A kit for designing or making doll clothes comprising: one or more pieces of conformable, lightweight, cohesive self-adherent elastic wrappable material a width, length, and relatively thin, uniform thickness, for use in cutting out pieces to simulate articles of clothing, ornaments, patterns, or accessories on doll figures; and instructions for making articles of clothing, or make patterns or accessories of the pieces for application onto dolls or doll-sized or dress form shaped mannequins.

Claim 37 (Original): The kit of claim 36 wherein the material is self-adherent, wrap made of a laminate of non-woven material and elastic fibers to provide elasticity.

Claim 38 (Original): The kit of claim 36 further comprising a doll or a doll-sized or dress form shaped mannequin.

Claim 39 (Original): The kit of claim 36 further comprising a fashion wheel.
